BIO:

Tom began his professional voice over career in the Los Angeles area in 1991, creating voices for animation, and then studied voice technique under Beverly Bremers. He has also been privileged to act as a narrator and announcer for commercials, shows, corporate and educational videos, e-learning, on-hold messaging, radio dramas, and to provide vocal effects, walla and Foley sound for movie projects. He brings the flexibility and intuition to form his voice around project requirements and the drive to work until he gets it right in order to please clients.

When he's not in front of a microphone Tom is busily engaged in composing music (a passion that began at age 4), song writing, script & story writing, and is an aficionado of classic, old school audio theater/audio drama.
